Alexandria, VA 22313-1450

RESPONSE TO RESTRICTION REQUIREMENT AND ELECTION OF SPECIES

This is in response to the Office Action mailed on March 19, 2004, in the above-identified patent application.

Claims 1-49 are pending in the application. A fifteen-way restriction requirement and an election of species requirement were set forth at pages 2-6 of the Office Action. For brevity, these rejections are not repeated herein but reference is made to the Office Action.

Applicants respectfully traverse the restriction and election of species requirements and asserts that there is no undue burden on the examiner to search the subject matter of each of the Groups due to structural similarities between the cores of the compound structures of Formulae (I) – (IX). Also, separate classification has not been noted for each Group. Therefore, reconsideration and withdrawal of the restriction requirement and election of species requirement is respectfully requested.

PROVISIONAL RESPONSE TO RESTRICTION REQUIREMENT AND ELECTION OF SPECIES

To facilitate prosecution of the application and in order to comply with the Examiner's requirements, Applicants hereby provisionally elect with traverse the claims of Group V (claims 1-11, 22-23, 33-34, 43-46 and 49) wherein the cardiovascular agent is an antihypertensive agent for initial examination in this application.

Applicant provisionally elects with traverse the compound of Formula (II) (shown at page 23 of the specification) in response to the Examiner's election of species requirement of a sterol absorption inhibitor for initial examination in this application. Elected claims readable thereon include claims 1-3, 10, 22-23, 33-34, 43-46 and 49.

Examination on the merits for the pending claims is respectfully requested. Applicants also respectfully request that the Examiner initial and return the outstanding PTO-1449 forms indicating consideration of the Information Disclosure Statements.

Respectfully submitted,

ANN MARIE CANNONI
